

# ALWAYS IN FOCUS: A SUCCESSFUL PARTNERSHIP

BAU 2023  
HALL B3,  
STAND 321

## Always the best solution. Your solution.

It's that time again! Welcome to BAU 2023 in Munich: the world's leading trade fair for architecture, materials and systems. We are very much looking forward to welcoming you to our stand and inspiring you with our presentation.

Because your requirements, demands and wishes determine our actions. Always with the aim of finding the best solution: Your solution.

Visit us in hall B3, stand 321 and discover innovative products as well as effective services that will drive our joint success.

Kai Teckentrup  
CEO

## Highlights 2023

- 1 CarTeck sectional door
- 2 T30-1-FSA RC2
- 3 DW 62-1 „Teckentrup DF“ Iso+
- 4 T30-1-FSA „Teckentrup 72 ST“
- 5 Tubular frame door ADS FR 30
- 6 DW 62-1 mit flush profile + frame samples
- 7 EI<sub>2</sub>60-C5-S<sub>200</sub> „Teckentrup 62“ 2-flg.
- 8 T90-2-FSA „Teckentrup 62“
- 9 Roller shutter door ThermoTeck „Easy“
- 10 Industrial sectional door SW 40
- 11 Fire protection sliding door model
- 12 Wicket door industrial sectional door

**S** 360° Service area

**T** TEO-Teckentrup easy online

**I** Information desk

## Full-service

## TE0 platform

- Configuration and ordering of products, reception of requests of quotations, booking of trainings and ordering of advertising materials. Whenever and wherever you want.
- Full support of our customers in the complete offering phase
- Growing all inclusive offer range that include a variety of services and is constantly being developed with our customers

Natalie Bokel, Service Manager Team South (Germany)

## Sales services

- Permanent contact person who is always finding the right solution for you
- With competence, fast and uncomplicated
- Technical consulting on your construction site
- Various technical hotlines: from project planning to object consulting

Anne-Kathrin Schulz, Service management and team offers

## Marketing services

- Customized marketing solutions for your sales success
- From online marketing and individual campaign flyers to Mobile or modular exhibition solutions
- Professional support for your regional marketing – perfectly adjusted to your requirements

## Service packages

- Perfectly customized services
- Targeted support
- Including, on demand e.g.
  - Measurement in case of complicated installations
  - Guided installation on the construction site
  - Door contracting service
  - Approval of hold-open systems

Andreas Sieker, Technical Adviser

ALWAYS THE BEST SOLUTION.  
YOUR SOLUTION.

WWW.TECKENTRUP.BIZ  
**TECKENTRUP**  
DOOR SOLUTIONS

**CarTeck GSW 40-L**

- Increased, certified burglary protection according to EN1627
- Effective and energy-saving LED lighting indoors and outdoors
- Safe feeling when starting and getting off due to maximum lighting
- Various options/extensions possible on the CarTeck Drive 600/800/1000!

**DW 62-1 „Teckentrup DF“ Iso+**

- Thermal separation on door leaf and frame prevents condensation in the edge area
- Loss of cold in the garage is prevented by the low  $U_D$  value:  $U_D$  value with mineral wool: 1.0 W/m<sup>2</sup>K (sound and burglary protection)
- Basic RC2 protection against burglars
- Multiple locking (RC3-compatible) increases security

**T30-1-FSA „Teckentrup 62“**

- Well-insulated transition from the garage to the house with a  $U_D$  value of 1.1 W/m<sup>2</sup> K
- Time saving during installation: frame filling at the factory with GKF (for RC), otherwise filled with mineral wool
- Installation advantage block frame 4.2: Simplified installation method and fixing of the block frame through slotted spacer plates incl. anti-twist device at the lower reveal area
- Burglary protection, fire protection, smoke protection, sound insulation and thermal insulation in one

**T30-1-FSA "Teckentrup 72 ST"**

- Very high visual demand due to the flush view in combination with sound and burglary protection necessary for the living area
- Maximum integration of hardware and door geometry: only the handle and hinges indicate the presence of a door
- Door leaf/frame rebate-free and flush with wall surface
- Very good sound insulation value: 42 dB

**NEW: Turbular frame door ADS FR 30**

- Complement Teckentrup product portfolio: Everything from a single source
- Quick and easy processing via TEO (incl. detailed drawing creation)
- Subsequent assembly or disassembly of hardware parts: e.g. motor lock, electric strike incl. striking plate even during operation

**DW 62-1 "Teckentrup"**

- Block frame 4.1: Simplified assembly and fixing of the block frame by means of an adjusting screw solution incl. anti-rotation lock at the base of the frame; fast, simple, mortar-free installation
- Flush profile allows the door leaf to be subsequently flush with the frame
- Flush glazing on both sides without silicone joint

**European door: EI<sub>260-C5-S</sub><sub>200</sub> "Teckentrup 62" 2lvs.**

- **USP:** Hinge side as full panic door in combination with security class RC3 as 60-minute fire protection exterior door
- **USP:** B Opposite hinge side as approval for defined sandwich panel walls from the manufacturers Paroc and Euroclad in conjunction with EI<sub>90</sub> when burglar resistance is waived; Cost saving, as a steel substructure is no longer necessary for installation
- High combination possibilities (sound insulation, smoke protection, pressure resistance, safety up to RC4)

**T90-2-FSA "Teckentrup 62"**

- **Unique selling point:** Approval for installation at greater heights T90 up to a size of 3000 mm x 3000 mm
- No trip hazard / threshold
- Designed for special requirements in data centres, such as T90 fire protection with installation at greater heights, smoke protection, pressure load resistance, burglar resistance
- 3D tapes allow optimal fine adjustment during assembly and maintenance

**ThermoTeck „Easy“**

- Increased closing edge safety through the use of light grids, especially in the area of highspeed doors
- Use of Easy bracket = assembly advantages over standard bracket
- 40 % faster assembly compared to conventional door systems
- One-man assembly possible

**EI<sub>230</sub> „Teckentrup 62 FST“**

- Variable mounting options as ceiling mounting, also without lintel, or classic as lintel mounting
- Variable door entry at the front even without an entry profile
- The customer wall remains untouched
- Invisible floor guide rollers
- Door leaf visually smooth and connected without screws

**SW 40**

- Combination of economy and robustness
- Enormous choice of optics and surfaces
- High-quality steel slats, 40 mm thick, double-walled, PU-foamed
- Easy to assemble and operate. TAV drive with FU and emergency hand crank

**Wicked doors**

- Slimmer appearance due to new edging profiles
- Concealed-inside straps = improved appearance, security and adjustability Protection against heat loss
- Teckentrup offers wicket doors with a low threshold of 23 mm. These allow trolleys and other means of transport to pass through unhindered.
- Additional equipment: electric door opener, magnetic contact, bolt contact etc.
- Use of the wicket door with sectional garage doors: multiple locking also possible
- For doors with wicket door, light grid possible instead of leading light barrier
